Thank you for choosing Sprint. We are committed to offering you big savings on our services and hottest devices with one- or two-year contracts.

If you've entered into a one- or two-year contract and choose to terminate or cancel your service before your contract ends, you will be charged an early termination fee of up to \$200 per line (if you are not eligible under the 30 - day guarantee period).

After Nov. 2, 2008, the early termination fee will be prorated for all NEW contracts from \$200 to \$50 depending on the number of months remaining in your contract. To find your contract expiration date, log on to My Sprint, and click plan details to the right of your phone.

Note: If your contract began before Nov. 2, 2008, terminating or canceling service before your contract ends costs \$200 per line.
